The Commodore

This is a unique and rare property. The Commodore is one of the few waterfront restaurants located directly on the North Sound and was originally home to Bordens Pizza, Caymans first pizza place. Shortly after, the property went through renovations with the help of some of Caymans top designers who created a stunningly stylish venue that embodies the rustic elegance of St. Tropez and the relaxed ambiance of South Beach. Previously known as Osetra Bay, this property is nestled in the picturesque and tranquil West Bay district of Morgans Harbor alongside Calypso Grill and Catch. It has a fully equipped restaurant grade kitchen with spacious outside dining and spectacular views of the North Sound.
